Geographia C51

This is about vision,
geometric twist and
craftmanship for the
eyewear brand of your
life journey.

UDM reinterprets timeless design by combining classy aesthetics with high-end hand crafted acetate constructions.

Unique

Our uniqueness is shaped by a return to timeless vision, where the classic eyewear references meets the contemporary interpreted through aesthetic visual language.

Design

From simple and at the same time ingenious lines that only a complex city full of creative moments like Milan can inspire. Strong, decisive lines, the exaltation of shapes with thicknesses, a fresh design to excite lover of beauty.

Milano

Seductive, tenacious, heterogeneous, futuristic, fast. Milan is a hub of ideas, creativity, connections. Cradle of innovation, intertwining, stories. Milan is poetry, and it is our place.

UDM is a result of many *conversations* about fashion, design and cultural roots.

Founded in Italy in 2018 by **Stefano Romanelli** and **Mattia Colleoni**, it is one of the most ambitious name of the Italian acetate eyewear, from optical to sunglasses collections.

The idea was inspired by the family interior design company of one of the founders, established in the late 60's, eternal globetrotters in love with the techniques and the evolution of details.

Eclectic and irriverent, an exuberance of attitude. A brand that translates excellence through passion.

Lucky Frog C51

Between clean silhouettes and chunky frames, plays of color and crystal finishes, without ever overshadowing functional *lightness*.

Recognisable by its uncompromising approach to design, UDM combines timeless references with a contemporary aesthetic.

Designed in Milan and
crafted by the wise
hands of skilled artisans,

the production cycle reflects the philosophy of the brand,

empowering a new
cultural positioning
based on timeless love
for design craftsmen,
artists and nature.

The *faith* of a few
